**4to AÑO A y B**  
**PROF. VALENTINA BOULIN**

DIGITAL IDENTITY - ACTIVITY 1

1. Analyze in pairs the personal use you've made of your social networks from the moment you opened your accounts until now. Check everything you've done with them, what you've published and shared, etc. Answer these questions:

- How old were you when you first started using social networks?  
11 y/o when I created my first Social Network, being WhatsApp, and then at 13 I created both tik tok and instagram.
- Which social networks did you use and which ones do you use now?  
I used to use WhatsApp, not too much Instagram or tik tok. Nowadays I mostly use Instagram, Tik Tok and WhatsApp.
- How many social networks do you use?  
I use 3, I have some abandoned accounts.
- What things did you publish in the past and how are they different from what you publish today?  
I didn't publish like a lot of things, mostly I reposted memes that I liked, and now I publish a lot of pictures of me.
- Why do you use social networks?  
For entertain myself, to escape from reality for a while and to relax.
- Which uses do you give to your social networks?  
Entertainment, a little bit of news and different things of astrophysics and biology.
- Is there anything you've published that you regret? What is it?  
No I don't
- Is there anything that worries you about the use of social networks today? Write at least one aspect.

Yes, mostly the grooming, stalking, and that anyone in any part of the world can see what you do or what you look like.

2. In groups of 4 (the couples must be divided) share what you discovered in the previous exercise. Compare the similarities and differences. Write a short paragraph with your conclusions. Share it with the class.

In general we started to use social media since we were very young, around 10 and 13 years old. The main social media that we all used is instagram, and some used Facebook. We use around 5 different social media. We all use Instagram, twitter, tik tok or discord. At first we would publish everything we did, and now we follow a social standard. We use social media to stay connected with other people. Some uses we share are entertainment and communication with others and in a less way, we use it to learn something. Some of us had published embarrassing photos or video but some others had not. Finally we all agree social media is a dangerous for the ones that don't know how to use it, but for all of us too due to the fact that hackers and criminals that can see everything you do.

3. Read the document about Digital Identity and in pairs write down the most important ideas.
