TECNOLOGÍA DE LA INFORMACIÓN Y LA COMUNICACIÓN
JULY / AUGUST 2022
4to año
ALUMNA,: JOSEFINA POROLLI
PROF. VALENTINA BOULIN

Activity 1

1. When I first started using social media, I was 9 years old.
2. I used Snapchat, Instagram, WhatsApp and TikTok. Nowadays, I use Instagram, WhatsApp, Twitter and TikTok, but very little time.
3. I use 5 social networks: WhatsApp, Instagram, Twitter, discord and TikTok.
4. In the past I would publish photos of everything I did, I would take selfies and post them too. Nowadays, I don't make posts or Instagram stories so often. Sometimes they are videos or photos training, landscapes and photos with friends.
5. I use social networks for entertainment, mainly, and sometimes to keep up with some news or events like the UFC. The rest of the social media is used for communication.
6. I use some social networks like Instagram or Twitter for entertainment and for expressing myself, and WhatsApp for chatting with others. Finally, I use TikTok for following some musicians and for watching videos that some friends send me.
7. I don't think I regret publishing anything, or at least I can't remember of a moment I did.
8. Sometimes I worry about the people who hide their identity and pretend to be somebody else. Besides, I worry about all the information that can be sometimes vulnerable when there is a private chat or private images. Finally, hackers are quite a dangerous and delicate aspect.

Activity 2
In general, we started using social media since we were very young, around 10 years old, to 13 years old. The main social media that we all used is Instagram, and some also used Facebook. We use around 5 social networks. We all use Instagram, Twitter, TikTok and Discord. At first, we would publish everything we did, and now we follow a social standard. We use social media to stay connected with other people, entertainment and for shopping, and in a less way, to learn. Most of us regret publishing embarrassing photos. Finally, we all agree that social media may be dangerous because of hackers, criminals, and because there are people who don't know how to use them properly.
